## NATURAL BEAUTY

What is close to nature is timeless and beautiful. Furniture in the unique oak veneer owes its unique appearance to the varied structure of the wood. Irregular grains and clearly visible knots, cracks or discolourations as well as a beautiful play of light in the reflection of natural wood on the surface of the decor look extremely atmospheric.

## MODERN CLASSIC

Design for demanding customers. Precious marble and proud shades of elegant grey and graphite create a perfectly complementary whole. Plus, in the kitchen applied a classic frame shape with a modern twist. In a kitchen like this, you just want to stay longer... if only for one sip of your morning coffee.

The concept of an open kitchen, smoothly transitioning into the living room is not only an ideal way to enlarge the interior, but also a source of inspiration to spend even more time together with the family.

# STORAGE

Every element **of a well-designed kitchen** is equipped according to **the needs and expectations** of users. Properly selected accessories allow you to enjoy cooking and eating.

Rotary shelves are solutions that will help you to make optimal use of the space in corner cabinets. Thanks to them you will be able to utilise even the most inaccessible corners of the kitchen cabinets.

The pull-out shelves with soft close allow you to make full use of the space available. They are perfect for base kitchen cabinets.

The subtle dividers and organisers for drawers are accessories which will make it easier for you to maintain order and ensure that everything is in place.

The system of professional cargo baskets will allow you to efficiently organise space. Easy access to supplies and capaciousness are undoubted advantages of such a solution.

Tower-type cargo basket provides comfortable and ergonomic storage of supplies. The internal drawers can be freely arranged and adapted to your individual needs.

The number of essential supplies, dishes and equipment in the kitchen makes it necessary to use organisation systems inside the cabinets. This is the only way to reduce the number of displayed items.

The Blum internal drawer system provides plenty of space for products and direct access to them on three sides.

# LIGHTING

**Functional and energy efficient** lighting solutions are an unconventional way to change every interior.

The lighting mounted on the bottom of upper cabinets will illuminate the countertop in the kitchen, greatly facilitating the preparation of meals.

The LED luminaire will work perfectly for illuminating countertop, the interiors of cabinets, as well as displays in a kitchen in every style.

A dedicated drawer lighting is a practical solution for precise illumination of this space, making it easier to access its contents.

Integrated LED with a cabinet top dedicated to admirers of technological innovations who value above all quality and economy, as well as care for the environment.

# PRACTICAL SOLUTIONS

**Modern solutions** increase the functionality of the kitchen interior. Various accessories, not necessarily intended to be used in the kitchen, may prove to be extremely helpful also in the kitchen.

The USB socket hidden in the countertop is a functional part of kitchen equipment. It is almost invisible, so it does not get in the way of the countertop aesthetics and remains a neutral part of the equipment.

The socket discretely hidden in the countertop allows for the free use of any kitchen appliances requiring direct access to electricity, such as a blender, food processor, or a juicer.

The iMove system turns a traditional upper cabinet into modern and ergonomic storage space, so you can enjoy full access even to the highest shelves.

Thanks to the AVENTOS lift system, the one-piece front can be easily opened upwards and stopped in any position. It is ideal for use in upper cabinets.

# CABINETS

When you order kitchen furniture from the Senso Kitchens collection, you decide every element of your kitchen. You can choose from a wide range of countertops, materials and front designs, handle types and lighting, body colours, interior equipment and, above all, cabinet types.

Senso Kitchens' range of custom-made kitchen furniture includes a wide selection of standard kitchen cabinets and the possibility of making non-standard cabinets, allowing for functional built-in of non-standard spaces. Custom-made kitchens are the perfect alternative for optimising both small kitchens, where every centimetre is worth its weight in gold, and large open-plan combined spaces. With the use of non-standard cabinets you can furnish any space, even the most inconspicuous.

In our range of custom-made kitchen furniture, we have cabinets for various purposes and sizes. Among the many cabinet models you will find.

- UNDER COUNTERTOP CABINETS IN VARIOUS HEIGHTS AND DEPTH
- UPPER COUNTERTOP CABINETS
- HIGH AND MEDIUM BUILT-IN CABINETS
- HANGING CABINETS IN VARIOUS HEIGHTS AND DEPTHS
- CABINETS FOR BUILT-IN HOME APPLIANCES
- CORNER CABINETS IN VARIOUS SIZES
- CABINETS WITH SHELVES OR DRAWERS
- MODELS WITH SOLID AND GLASS FRONTS
- CABINETS WITH CURVED FRONTS

# ACCESSORIES AND FITTINGS

The Senso Kitchens equipment range is based on only the best solutions from our trade partners. Thanks to modern accessories, kitchen cabinets and drawers open easily and close quietly and evenly. Such equipment also allows convenient access to the inside of furniture, even deep ones.
